

## Marketing Bulletin #47 – Multi V III Air Source Brochure Release

LG is pleased to announce the first Multi V III Air Source sales brochure.

This document is designed for engineers to use as a show and tell piece for architects, developers, investors and owners, anyone involved in the VRF vendor decision making process.

### Is this brochure similar to the current Multi V II?

No. The Multi V II does not have a promotional brochure introduction piece such as this brochure.

### Will there be a product catalog for this Air Source Multi V III?

Yes. Multi V III will have a new product catalog (Mid-December 2011) with detailed engineering data for outdoor units, indoor units and controls. Other data is on the LG-VRF.com web site in the Multi V III products tab.

### Where can I find this brochure?
